Young Girls In Danger

Once again the evil of lust has struck in the city of Edmonton and a 14-year-old girl is the victim. It would seem peculiar to some people that some protection should not be available for such young persons on the city streets, but the fact is that most of these young persons are pretty much to blame themselves. A look at the reports of all the similar incidents in Edmonton over the last 10 years shows that in every case the incidents have taken place in the late hours of the night.

Some young girls working late in restaurants and other places are compelled to go home late, but in such cases the employer should be compelled to be responsible for their getting to shelter at their home. But in most cases the trouble is with the lax habits of young girls staying out to late hours at the theatre or dance hall.

If a young girl allows a stranger whom she has just met casually at a dance to take her home, what does she expect from a man she knows nothing about? All of these cases, or most of them, could not happen if young girls were not on the street beyond the time decency permits.

Every young girl who walks alone on the street at a late hour is deliberating the possibility of attack. The cure is the old adage: "Early to bed and early to rise, makes one healthy, wealthy and wise."

It Is Only Community Wealth

Attention has been drawn to the "presumption" that Canadians are the wealthiest people in the world by a writer in Eastern Canada commenting on the speech of F. G. Winspear, ex-president of the Canadian Chamber of Commerce, this week.

It is true that on a per capita basis Canadians are better off than most people, but such per capita figures are often very misleading. The average Canadian may be better off today than he was ten years ago, but few of them would admit they see much more of the alleged wealth of the Canadian people. It is true that today the aged and out-worn citizens are better provided for than they used to be, but when the high cost of a beef stake is considered and the fact that everything from clothes, bus rides, theatre tickets, groceries, rents and fuel have sky-rocketed beyond any advantage old age pensions and other social welfare benefits give, the fact remains that nobody has any given quantity of this alleged wealth belonging to the Canadian people. The average Canadian may be a partner in his country's astounding wealth of resources, but his path is still one of puzzling how he can pay his bills. Taxes are increased to make up massed wealth.

What a Difference!

The news about Prime Minister Churchill's action in reducing his own salary and those of his cabinet ministers throws the difference between the British government and the Alberta government into striking contrast. The British nation is facing very hard times with fresh demands on the people's loyalty and fresh experiences of austerity for them, and the Churchill government has set the example by sharing some of the load itself.

In contrast, almost the first thing the Alberta Social Credit government did, when it took office, was to increase the salaries of cabinet ministers and members' indemnities. This was done not in a season of prosperity but when the big depression was at its peak. Wild dreams of easy wealth through issuing new money in basic dividends were being dreamed then by the Social Credit party, and doubtless they wished to demonstrate possibility of paying dividends by paying them to themselves first of anybody. The citizens of Alberta, however, are still waiting for their dividends!

Everyday Living

What you and I do today, in the ordinary course of business and social life, will determine our responsibility in our community life. We are living in a sick world. We may be part of the disease, or, we may be part of the remedy, which? Jesus is constantly examining my heart and asking me, "What are you doing that the non-christian does not do?"

During these days it is well that I should discover how christian I really am. What am I doing that the non-christian does not do? Am I able to perform the ordinary tasks of life with an extraordinary spirit? Am I able to turn the other cheek and put an end to strife? Can I walk the second mile without becoming bitter? Am I patient enough to be silent in the face of severe trial, knowing that some day the truth will set me free? Am I praying daily, that my enemies may be forgiven? Am I willing to suffer so that some deep-seated wrong may be corrected, the conscience of mankind awakened to divine duty? Am I willing to be like Jesus as I perform my life's duties? Jesus is ceaselessly examining my heart and asking, "What are you doing that the non-christian does not do? When you and I, neighbor, are willing to honestly face our responsibility in making a better world, then we become part of the remedy for our sick world.

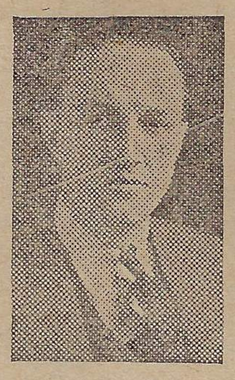

". . . What more are you doing than others? . . ."—Matthews 5:47. Read today, Psalm 139:14-24.

Coarse Grains Marketing Act

By T. W. PUE

It didn't take Alberta long to throw out their legislation dealing with the compulsory wheat board marketing of oats and barley. Apparently, though this legislation was passed by three prairie province legislatures and the Ottawa house it was never very popular by the governments except in Saskatchewan.

T. W. PUE

Manitoba Province is ready to hold a vote on the subject to give farmers there the opportunity of deciding which way they want their coarse grain marketing to be done. Meanwhile, Alberta has thrown a monkey-wrench in the works because if the system is not going to be carried on in one province, how can it be made compulsory in the other two, even if Manitoba farmers vote for a continuance of the plan.

This situation was made possible because in 1948 Hon. C. D. Howe gave his personal guarantee that whenever one province should decide they no longer wanted compulsory marketing of coarse grains, he (Howe) would throw the whole deal out the window.

That being the case, what use is the vote going to be in Manitoba, seeing our own province has set aside this legislation? Well, I think it will assist Hon. D. L. Campbell, Premier of Manitoba, and his government by knowing exactly how the farmer himself feels about the matter. Here in Alberta we have not asked the farmers what they think—just gone ahead and set the legislation aside. No doubt the holding of a vote here in Alberta would be the democratic thing to do.

I received the following letter from a youthful aspirant for a job who wrote to me from Bruderheim:

Dear Sir: I have read your ad in my recent paper that you want applicants for jobs in your firm, and I would like to receive more information on the following: a, hours of work; b, wages; c, and holidays. Yours truly, etc.

This young fellow did not say what kind of work he'd like to do. He obviously has no ambition for any work, or desire to make a success, nor did he express a liking for newspaper work. Even if our education system can't train our young people to desire a vocation for the joy of doing a job, and doing it well, why don't they teach them to write a letter of application that might land them a job—even if they're only interested in high wages, low hours of work, and long annual vacations?

Some time ago I got into a discussion about fishing in the garage of Kerr & McKeen in Sangudo. I learned there some of the most surprising things in my career as a newspaperman or as a fisherman. It seems that Pat Kerr, on a recent fishing expedition, hooked a monstrous bull trout that pulled him right into the water. Mr. Battagin, of Mayerthorpe, on the same trip, hooked an even bigger trout.

I am amazed how two big, husky men can be completely baffled by a 2½ lb. trout. But who among us would go fishing, if we couldn't tell about it afterwards?

In Meanook last month I met assessor V. C. Hart of theMunicipal District of Athabasca. He gave me a treasured bit of humor which I'll pass along to you:

A resident owned a goat. His next door neighbor was the tax assessor who did not like goats so he taxed his neighbor's animal $4.00.

In reply to objections, the assessor claimed: "That is strictly in accordance with the law." "I demand proof," retorted the irate goat owner.

The assessor thereupon read the following: "All property abutting and abounding on the public street shall be taxed at the rate of $2.00 per front foot."

Goat owners of M.D. Athabasca—beware!

Some people have taken me to task for writing to Princess Elizabeth. I haven't yet had a reply to my letter. If Her Royal Highness asks President Truman's advice he's likely to suggest offering me a "good punch on the nose" as he himself has threatened newspaper writers. Truman is quoted by one writer as saying he is "saving up four or five good punches on the nose" for persons who have written "lies" about his family which he'll deliver "when I am out of this job."

I wonder if he is overmatching himself?

WHILE THE thoughts and minds of Canadians have been rivetted lately on the Royal Tour of Canada, the grim business of war goes on in Korea. It has been reported that Chinese soldiers, fearful of hunger and cold of an approaching winter, are surrendering to United Nations forces where they find food, clothing and warm barracks behind prisoner-of-war barbed wire fences.

Voice of the People

"VOX POPULI, VOX DEI"

LETTER TO ELIZABETH

Good for you, Bill Pue!
You dared to speak the truth;
We're proud of you, Bill Pue,
And wish there were more like you.

So here's to you, Bill Pue,
And may you long be with us!
You're feeling's with the common man—
The man who MAKES the Nation.

So God bless you, Bill Pue,
And carry on, won't you!

Edmonton. M.C.F.

Dear Sir — Re your pathetic letter to Princess Elizabeth, if being a reader of your paper qualifies me as being represented by you, then I hasten to correct the situation. Like every man, you are entitled to your own opinions. But when the editor of a newspaper voices those opinions in such poor taste, disguised as friendly advice—words fail me. If Princess Elizabeth has a battery of secretaries, I sincerely hope they do not allow your letter to be read by her. How hurt she would be.

Judging by the manner in which the royal visitors were received all across Canada, I do not think the Princess has to worry much about selling herself. Her qualities of sincerity, naturalness and grace have endeared her to millions. True, she is a little shy perhaps, but we love her all the more for it. She needs none of the Hollywood tactics such as signing autographs (which in fact is absolutely not allowed) to win and keep the esteem of the Canadian people. Of course, she is bound to make mistakes. Who wouldn't? Is she not human?

One does not have to read very much to realize how very little of their own way the Princess and the Duke actually had on this tour. No doubt the royal visitors would have loved to spend much more time with the common people, instead of being monopolized by bumbling, greedy officialdom.

One thing I do agree with you on—your chances of being Prime Minister.

THE ONLY ANTIDOTE?

Dear Sir—At Eniwetok several atomic bombs were exploded to test the destructive efficiency of this latest deadly weapon fashioned by man to destroy his fellowmen. These latest bombs are vastly more destructive than those used against Hiroshima and Nagasaki in 1945, each of which had the destructive power of 20,000 tons of TNT. How much more destructive are the 1951 variety, is a secret known to very few. Communist Russia also knows how to make and explode atomic bombs, and so the race is on now for the biggest and most destructive atomic bombs that can be made.

The atomic bomb supplies man with a weapon by which he can destroy himself and his world. To prevent him from doing so, he needs to be given another weapon—one of constructive, spiritual power capable of counter-balancing the suicidal power of destruction now in his possession.

That power is already at hand. It is the Gospel of Christ which, we are assured (Rom. 1:16), is the very "power of God unto Salvation to everyone that believeth." Man has thus two decisive weapons in his hands—one by which he can destroy himself; the other, by which he can save himself.

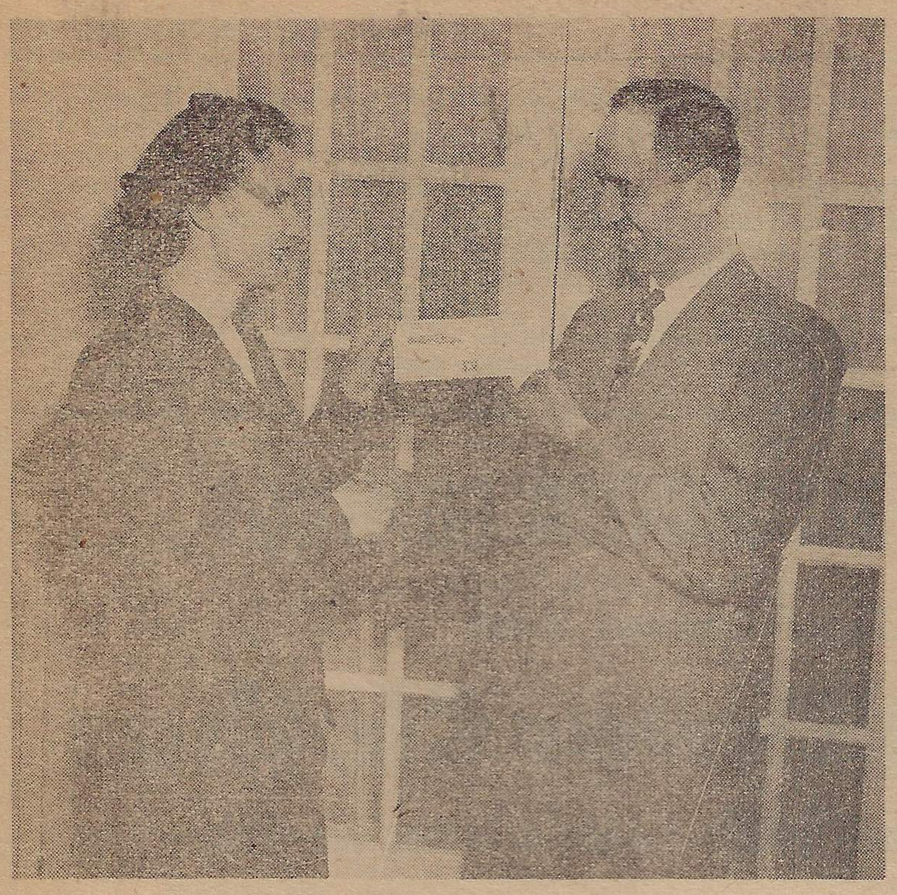

But the power of the Gospel of Christ, like that of the atomic bomb, must also be demonstrated. Paul assures us again and again that this Gospel must be preached "not in word only, but also in power" (I Thess. 1:5); "not with enticing words of man's wisdom, but in demonstration of the Spirit and of power" (I Cor. 2:4).

For all power has this peculiarity, that to be made effective it must be demonstrated, or shown. An atomic bomb remains harmless till it is exploded; then its power is shown. So with the Gospel of Christ: it is not enough just to talk about it, to philosophize about it e,ven to praise it. It must be made effective. Its power must be shown in the changed lives of those who believe and accept it. It must be exploded in the hearts of a lot of people who will thus come to know and serve the Lord Jesus Christ.

The first fifty years of this twentieth century have left mankind frightened and insecure, terrified at the prospect of a third World War and the use of atomic bombs and other even more dreadful weapons of destruction. Fascism and Nazism have been defeated, but the new tyranny of Communism now controls a large segment of the earth and threatens the rest, even the free life of Americans.

The time has come now when mankind must choose one or the other of the two weapons in its hands—that of destruction or of salvation. Nothing less than the power of God can save—not the works of men. In the Gospel of Christ we have the very power of God.

WINS $960.00 CHECK

Two days before her birthday anniversary, Mrs. Lucy Woywitka of Legal received a check for $960.00 from the Dr. Chase Medicine Company. She won first prize in a recent nation-wide contest. In the picture above, the Mayor of Legal, George Montpetit shares with Mrs. Woywitka her happiness as he presents her with the check. The lucky winner, who before marriage was Miss Lucy Gerla, says the check came in handy as a birthday gift—and we're inclined to believe her!

Four Alberta Families Cited As Master Farmers

The third group of Master Family Award winners were announced this week by Hon. D. A. Ure, minister of agriculture.

Winners are:

John G. Porozni Family, Willingdon; J. W. Hosford Family, South Edmonton; Floyd Gillyson Family, La Glace; Victor Watson Family, Airdrie.

Each master farm family receives an award of $1,000, an engraved plaque and a name plate for the farm entrance.

Objectives of the master farm family program are to provide a practical recognition of farm and family progress and approved agricultural practices. The advantages of the farming vocation and the wholesomeness and dignity of rural life are emphasized and farm youth are provided with a goal by the program.

Mr. Ure reminded the people of Alberta that one of the main purposes of the program is to find and honor those families who have made outstanding progress in farming, homemaking and citizenship.

"The slogans of the Master Farm Family are Good Farming, Right Living and Clear Thinking," he said. "I hope the program will continue to encourage and maintain the high ideals of good farming practices, good family relationships and good citizenship."

With the continuance of the program from year to year, the high standards required for nomination are becoming more fully appreciated by the people of the province. A total of 36 families were nominated for the 1951 Master Farm Family Award, a total slightly less than that nominated last year.

Candidates for the master farm family awards must be Canadian citizens who have operated farms in Alberta as owners or lessees for 20 consecutive years, (military service is included). At least three neighbors must nominate a candidate and the candidate must personally accept the nomination.

The winners are selected on a district and regional basis and confirmed finally by a provincial committee. The regions correspond roughly to the soil zones of Alberta. Both technical and practical agriculturists and home economists are represented on all committees.

Under the system of selection, provision is made for an evaluation under 87 factors related to the farm, cultural practices, family, and community life. It will be seen therefore that a very high standard of performance is required and that a family can measure up only by a creditable record in all or most of the points of this very comprehensive score card.

The main divisions are the home and farmstead, operation and organization of the farm, family and community life and management and business methods. Possible maximum scores have been calculated carefully for each division according to its relative importance and the record of each candidate is assessed in relation to the possible scores.

The Minister of Agriculture congratulates the master farm families for their fine records of achievement and also commends the other candidates who were honored by nomination. He expresses sincere appreciation for the work done by the various selection committees.

Poster Competition For Alberta Students

The Hon. Ivan Casey, Minister of Education, has given his endorsement to the Health Education program of the Alberta Tuberculosis Association, which this year again includes a special poster competition for pupils of Indian and Metis schools in Alberta.

Students are invited to submit a poster of their own design and composition, illustrating any phase of good health habits. Individual prizes for each grade will be awarded and over $100 in cash, sports equipment, or other school extras will be presented to the winners.

In addition to about $340 federal taxes on a $2000 car, in some provinces Canadians pay provincial and municipal taxes.

God has declared and promised there will be no more war, pain or death and the earth shall yield abundantly. Learn his glorious plan and rejoice in confident hope.

NORMAN DEPOE—Filling in some of the detail in the picture of Canadian and world happenings which comes to us through radio and press news reports, is the job of the nationally heard program "CBC News Roundup.' Many Important Changes In Airlines Schedules

VANCOUVER — Several important changes in the schedules of Canadian Pacific Airlines operations in British Columbia have been announced by the company. They went into effect on Nov. 1.

The direct service between Edmonton and Vancouver via Peace River, Grande Prairie, Dawson Creek and Prince George has been curtailed to a local operation between Edmonton, Peace River, Grande Prairie and Dawson Creek. The departure time out of Edmonton is now 10:00 a.m., not 2:10 p.m. The flight will arrive at Peace River at 11:40 a.m., departing 15 minutes later. Arriving at Grande Prairie at 12:35 p.m. it will leave at 12:50 p.m. and arrive at Dawson Creek at 1:20 p.m. On the return flight it will leave Dawson Creek at 1:50 p.m. and arrive at Edmonton at 4:50 p.m. The flight has also been stepped up to operate four days a week instead of three days a week. It will now make the return trip on Mondays, Tuesdays, Thursdays, and Fridays.

Province Announces Details Of Old Age Pension Assistance

Under authority of the Old Age Assistance Act and Old Age Pensions Act (Alberta), the Government of the Province of Alberta is prepared to pay 50 per cent of any allowable assistance up to a maximum of $40 per month to persons who have reached the age of 65 but are not yet 70.

To qualify for this form of assistance, persons in this age group must have resided in Canada for the 20 years immediately preceding the date of the proposed commencement of assistance payments, or, if he has not so resided, he must have been present in Canada prior to those 20 years for an aggregate period equal to twice the aggregate period of absences from Canada during those 20 years.

According to the Act, any person in receipt of an allowance under the Blind Persons Act, or the War Veterans' Allowance Act, 1946, or a pension under the Old Age Security Act, cannot qualify for assistance under this scheme.

An unmarried person with an income of $240 per year or less, exclusive of this form of assistance, may obtain the maximum allowance of $40 per month. If his income is in excess of this amount, the allowance will be reduced to a figure so that the combined income and assistance will not exceed the sum of $720 per annum. In respect to a married person living with his spouse, the corresponding figure is $1,200 per annum; while for a married person who lives with his spouse who is blind within the meaning of the Blind Persons Act, the figure is set at $1,320 per annum.

To avoid delay in making payment when the scheme comes into effect, application forms have been prepared and any person who can qualify for, and desires this form of assistance, may obtain a set of these forms from their local municipal office, or directly from the Old Age Pensions Branch of the Department of Public Welfare. The forms should be completed and forwarded as soon as possible, either through the municipal office or directly to the Old Age Pensions Branch, Administration Building, Edmonton.

Arrangements have been made with the Municipal Association whereby the local municipal officials will assist applicants in the preparation of the forms, if so desired. Applicants are reminded that proof of age, preferably in the form of a birth certificate, and proof of residence for the stipulated period in Canada, must accompany all applications as otherwise assistance cannot be approved.

Air Cadet League Winners Are From Small Alta. Towns

Alberta's small towns stole the show at the presentation of awards marking the conclusion of the annual meeting in Calgary of the Alberta committee of the Air Cadet League of Canada.

The Alberta Air Cadet League shield, a new award made by the provincial executive to the civilian committee making the greatest contribution to the cadet movement, was presented to E. A. Umbach of Sexsmith by President Harry F. Francis of Calgary.

Other small centres honored by the presentation of plaques were Markerville, and No. 225 squadron at Taber.

The Air Cadet League of Canada trophy, donated by M. Banker Bates, was awarded to Cadet Roger J. Neill of No. 12 squadron, Edmonton, for achieving the highest score in Canada of 370 out of a possible 400 in ground and flying marks.

H. L. Garner, Canadian president, presented the Token of Friendship trophy, donated by the British Air Cadet training corps, bought with "the pennies of British air cadets" and won by Alberta cadets for attaining the highest provincial average marks in flying training.

Other awards included a silver tankard to Flt. Lt. M. E. Ferguson, and a silver mug to Sgt. William Ingram, both of the RCAF Tactical Air Group, Edmonton, in recognition of their work with cadets.

CORONER'S JURY WARNS AGAINST LEAVING SMALL CHILDREN ALONE

Small children should not be left along without proper provision made for their protection and safety. This was the warning contained in the verdict Friday of a coroner's jury investigating the death of Paulette Dupuis, 10-month-old daughter of Mr. and Mrs. Adelarde Dupuis, 12910 103 St.

The child died recently in the Dupuis home from carbon monoxide poisoning from smoke caused by a small fire.

The jury heard the mother and father tell how they had left their three small children, the eldest only four, to go for some week-end supplies to a north Edmonton store. On their return they found the cottage filled with smoke and the three children overcome, two of them sprawled on the floor.

The parents were able to revive the four-year-old and the two-year-old, but not the baby.

They washed the baby's body and wrapped it in a white sheet and placed it in a home-made coffin. They told of keeping the child's body overnight, and then asking a priest the next day about burial arrangements.

Other witnesses at the inquest were Dr. W. B. Leach, who gave the cause of death and Const. W. Maloney of the city police, who investigated.

Members of the jury were Philip Jean, E. W. Armstrong, James Bonnie, David Brockie, Hugh Allen and William Corrigan. Dr. M. M. Cantor, provincial chief coroner, presided.

Peron To Have Election Holiday

BUENOS AIRES, Argentina—President Juan D. Peron was free today to take a leave of absence until next April 30, but he did not indicate when it will start.

A law permitting the leave went into effect last night. Peron asked congress to let him step out of office during the Nov. 11 general election, in which he is a candidate for re-election, so that he could not be accused of prejudicing the results.

Government Power Is Limited

CALGARY—The absolute limit, to what the government can have a say in, was arrived at Thursday in the Alberta School Trustees' Association convention in the Palliser Hotel.

During a debate on the advisability of raising the daily maintenance allowance for school children who have to be boarded out, one delegate asked the government expert, Dr. W. H. Swift, Deputy Minister of Education, "Is there a limitation on the number in the family?"

"No," replied Dr. Swift, "that's up to the parents."

The Lighter Side

Probably Worth It

A fellow who lived in an isolated region went to the city for the first time and returned wearing a ring containing a huge stone. The jewelry dazzled the village belles and excited the envy of the other men, one of whom finally asked if it was a real diamond.

"Wa'al, if it aint," replied the wearer, "I've shore been skunnt out of four bits!"

Short Summary

An automobile acident resulted in the death of the driver and the injury of two passengers. The coroner summoned several witnesses, and among them a farmer living near the scene of the accident. There was much testimony about the speed of the car and the sad state of repair of the road. Finally the coroner said to the old farmer: "What would you say caused this accident?"

"Well, if I was writing that young man's epitaph," the witness drawled, "I'd say he died trying to get 75 miles an hour out of a 15-mile road."

Dual Capacity

The chief constable of a small English town was also a veterinary surgeon. One night the telephone bell rang. The chief constable's wife answered it.

"Is Mr. Blank there?" said an agitated voice.

"Dou you want my husband in his capacity of veterinary surgeon or as chief constable?" inquired the woman rather pompously.

"Both, madam," came the reply. "We can't get our bulldog to open his mouth, and—there's a burglar in it!"

Useful

An enthusiastic church worker called at an English cottage where the occupants were slack in the matter of church attendance.

To her delight, she was asked if she could supply the wife with a certain church magazine. As she did not have one with her she trudged a considerable distance to get a copy, finally arriving back breathlessly at the cottage with the magazine.

"Oh, thank you so much!" gushed the woman. "You see, Jock is doing a bit of poaching tonight, and he wants to know when the moon rises."

White Gideon Bible On Royal Train

When the Royal train bearing Princess Elizabeth and Prince Philip passed through Edmonton it carried in the Royal car a copy of St. James version of the Bible.

The Holy Scriptures are enclosed in white covers in a copy of the Book specially prepared by the Gideon Society of Canada.

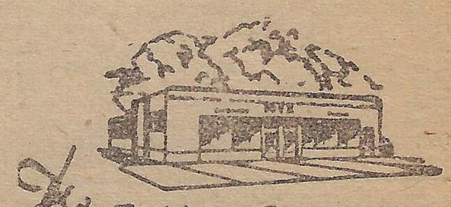

Canadian Nun Held By Reds

HONG KONG — Catholic sources at Hong Kong say that 125 foreign Catholic clergy, including 22 nuns, are still imprisoned in Communist China.

Many other priests are under house arrest. Latest victims are Spanish Archibishop Theodore Labrador, and Canadian Mother Superior Rose Alma Larose, 46, of Hannord Frontenac.

Four other prelates are under house arrest and nine have been expelled from China. Only two of the 22 nuns have been brought to trial.

Letter to Louisa

Dear Louisa:

My boy friend and I have been going steady for two years. During these times I have been happy and satisfied with my choice.

Recently he has tried to be too personal. I told him no but he keeps on trying.

I don't want anything to happen that we will regret later on. What shall I do? I love him very much but will break off our friendship if this continues. Would I be doing the right thing?

I am a teenager. Please send me your much needed advice.

BEWILDERED.

Answer:

If a boy truly loves a girl, he will try to protect her and not try to persuade her to permit intimacies that bring grief and loss of respect and reputation to her.

No matter how much you love this boy, keep your self respect by behaving yourself. The amazing part of it will be that he will also have more respect for you and real love if you do not cheapen yourself.

I think you show that you are a fine person in that, while you have become attached to this boy and love him, you have the will power to give him up rather than do wrong. It will be hard for you to give him up but, believe me, you will be much happier in the end by doing so, if he does not change his ways.

LOUISA.

Six Western Bakery Firms File Notice To Appeal Combines Act Conviction

CALGARY, Alta., Nov. 2—(BUP)—Six western bakery firms convicted of combines activities and fined $30,000 and costs filed notice of appeal today with the Alberta supreme court.

The firms listed 16 grounds for appeal on the basis of law alone, and asked that the appeal be heard at the next sitting of the Supreme Court appelate division which starts Nov. 16.

Justice Boyd McBride of the Alberta supreme court found the firms guilty Oct. 2 of conspiracy to unduly prevent or lessen competition in the western baking industry. His judgment was handed down in Calgary.

Hearing of the charge against the firms lasted 99 days and ended in June of this year.

The firms concerned were: McGavin Bakeries Limited, Winnipeg; McGavin Limited, Edmonton; McGavin Limited, Vancouver; Canadian Bakeries Limited, Calgary; Weston's Bread and Cake (Canada) Limited, Winnipeg; and Edmonton City Baking.

The notice of appeal said the six companies would contend that in the conviction a substantial wrong and miscarriage of justice had occurred and it said the firms intended to ask for this reason that the conviction be quashed and set aside and the charge dismissed.

As an alternative, they will ask that a new trial be ordered, or that the fines and costs imposed be reduced by the appeal court.

Tony Hemmerling Coaching Seattle

SEATTLE. — Tony Hemmerling was back coaching Seattle Ironmen in their Pacific Coast Hockey League game with Calgary last night.

But for a while there was some question.

Hemmerling became enraged at the officiating and at Tacoma's coach, Muzz Patrick, in the game at Tacoma Saturday.

Big Tony crossed the ice and hung a shiner on Patrick's eye. Hemmerling was going to quit as Seattle Pilot before Seattle Owner Frank Dotten talked him out of it.

As for Dotten, he said he's getting caught in the wallet. Patrick —said Dotten—sent him a bill for a new suit. Seems Patrick ripped one of the sleeves out of his coat when he swung at Dotten's man Hemmerling.

Winterizing And Storing Of The Very Important Farm Tractor

The weather is getting colder; more snow will be falling; the north-west winds will howl and drift snow until you won't be able to see your tractor on the field where you worked with it last; or by the fence or just any place on the farm yard. That's what happens to all or most of our high priced implements.

A little care in preparing the farm tractor for winter storage will do much to prolong its life. The first thing is to clean it thoroughly of all grease, dirt and dust. Next drain the crankcase, flush the motor and refill with clean oil and operate the engine for a few minutes. Drain the radiator and flush the cooling system with a scale removing solution. Leave the drain cocks open.

Remove the spark plugs and pour not more than a cupful of oil into each cylinder; depending on the size of tractor, smaller cylinders use less oil. Turn the engine over by hand a few revolutions and replace the spark plugs. Remove the battery, charge it fully and store in cool dry place. Drain all the fuel from the tractor — this includes fuel tank, fuel lines, sediment bowl and the carburetor.

Give the tractor a complete and thorough grease job and block the machine up to take the weight off the tires. Store the tractor in a protected place, or at least cover the tires. Cover the exhaust pipe and breather cap to keep out snow, rain, mice and possibly even birds.
